## CHURCHES CLOSE DOWN DUE TO THE BLACK DEATH

Churches are closing down due to shortages of priests at churches because many of them have been taken ill when visiting the sick and ill. Many people have become desperate that they have started to slice open their boils and burning them. It is estimated that when it is over the UK's population will have decreased by 1,500,000 people.

There is a shortage of food all over Britain and many of people think that it is the end of the world and first it will be the plague and then the Apocalypse. Is it the end of the end of the world?

Many people who have caught the disease have boils called 'buboes' which grow in the groin and under the armpit and they are about the size of a tennis ball. Many people have

resorted to slicing their boils open and burning them with a red hot poker and cutting a live pigeon open and rubbing it on your boil.

Some people who are well are taking the chance while all the prices everywhere have decreased and people who are still well are panic buying.

Another way of helping the plague disappear is throwing scented herbs and spices on to a fire to purify the air.

This is really a bad time of our lives, and what have we done to deserve this?

## Is this the end of the world???

Is this the end of the world? Is the lord god trying to punish us for all the swearing and gambling and adultery and all the bad things we have all done.

Many of the other news pa- pers like HUGO NEWS are gib-

ing false accusations about our priests committing adultery in the world wide panic. We are going to kill them.
